READY-TO-USE AND NATURALLY.

NATURAL PLUS – THE ULTIMATE NATURAL OIL

NaturalPlus is the innovative new development from BOEN. Deep penetration of the natural oil into the wood is ensured by two-time application of the natural oil on a custom-made production line. The wood pores are saturated, and drying takes place completely naturally in the open air during a process known as the "Air-Plus Process". This produces one of the best and most wear-resistant natural oil surfaces in the market.

NaturalPlus – breathable and ready-to-use!

Natural oils, such as sunflower, thistle or soya bean oil as well as naturally occurring waxes (carnauba, candelilla) are the components of this precious oil.

The benefits of NaturalPlus at a glance:

- Ready-to-use – immediate use of the parquet floor after installation!
- Extremely good protection properties against liquids – superior compared to competitive products!
- Completely natural ingredients – no harmful emissions!
- Improved UV stability!
