BOEN

YOUR STYLE • YOUR FLOOR

Boen goes back to 1641, originally starting with two sawmills by the waterfall Boen – In Norway.

For over 350 years, the people at Boen have manufactured timber and in all those years quality has remained the essential point behind all their labour. Boen is Europe's leading parquet flooring manufacturer.

Europlex is the proud exclusive distributor of Boen in Western Canada, and as our flagship brand we keep hundreds of thousands of square feet on-hand.

Boen established one of the largest and most modern production lines of multi-layer hardwood flooring in Europe. Today you'll find BOEN hardwood floors in more than 50 countries

Boen offers a wide range of colour, format, surface treatment, huge plank size options, precision engineered, installation simplicity, line of gym/arena flooring, and innovations such as the Live Pure surface finish – The many reasons we LOVE Boen.

BOEN CERTIFICATES

Core to Boen's culture is respect for nature's resources is a long history of environmental leadership. Raw materials processed at Boen come from sustainably managed forests and the finished flooring provides a healthy indoor climate.

SURFACE TREATMENTS

Neither lacquer nor oil emit gases which are harmful to humans or to the environment. We offer you a wide range of surface finishes.

LIVE NATURAL OIL

Live Natural is a natural surface treatment containing oils such as sunflower, thistle or soya bean oil as well as naturally occurring waxes (carnauba, candelilla). Deep penetration of the oil into the wood is ensured by two-time application on a custom-made production line. The wood pores are saturated, and drying takes place completely naturally in the open air during a process known as the Air-Plus Process.

LIVE PURE LACQUER

Oak planks with Live Pure surface treatment have a very natural look with ultra matt finish and very good protective characteristics. Live Pure protects the floor from dust, dirt and liquids thanks to a special treatment applied to the surface which leaves the look of the hardwood floor smooth, clear and naturally light almost like untreated wood.

LIVE MATT LACQUER

This 6 layer Live Matt sealing with a very low gloss level makes the surface look "as oiled". A natural look combined with the advantages of a scratch-resistant finish. An easy to clean surface with a non-brushed surface.

LIVE MATT PLUS LACQUER

(NEW IN 2023)

Slightly more matt than our BOEN Live Matt and with a natural look that still offers a lovely degree of elegance. This attractive and protective surface treatment can now also be applied to brushed surfaces, giving the floor even greater impact, and intensifying its soft matt quality. BOEN Live Matt Plus also penetrates the smallest pores of the wood, meaning it is now even possible to seal planks with a bevel.

EURO CORK

A naturally beautiful & healthy flooring solution.

Cork flooring creates a warm, clean, quiet, and relaxing ambiance. Cork has been used as a flooring material for hundreds of years. It provides acoustical and thermal insulation, it cushions the feet, and it is resistant to moisture. EuroCork Flooring is easy to clean, with proper maintenance your floor will last for years to come.

CHOOSING SUSTAINABILITY

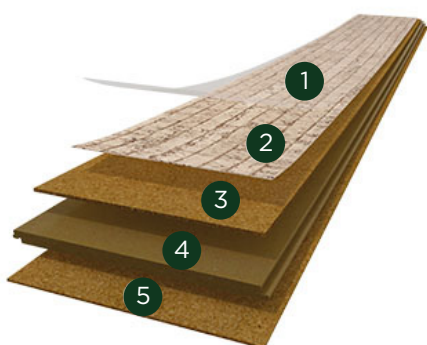

The Cork Harvesting does not harm the tree which is never cut down or removed.

Cork Oak remains the only tree whose bark can regenerate itself after harvest, leaving the tree unharmed. The tree lives up to 200 years, and are harvested every 9 years!

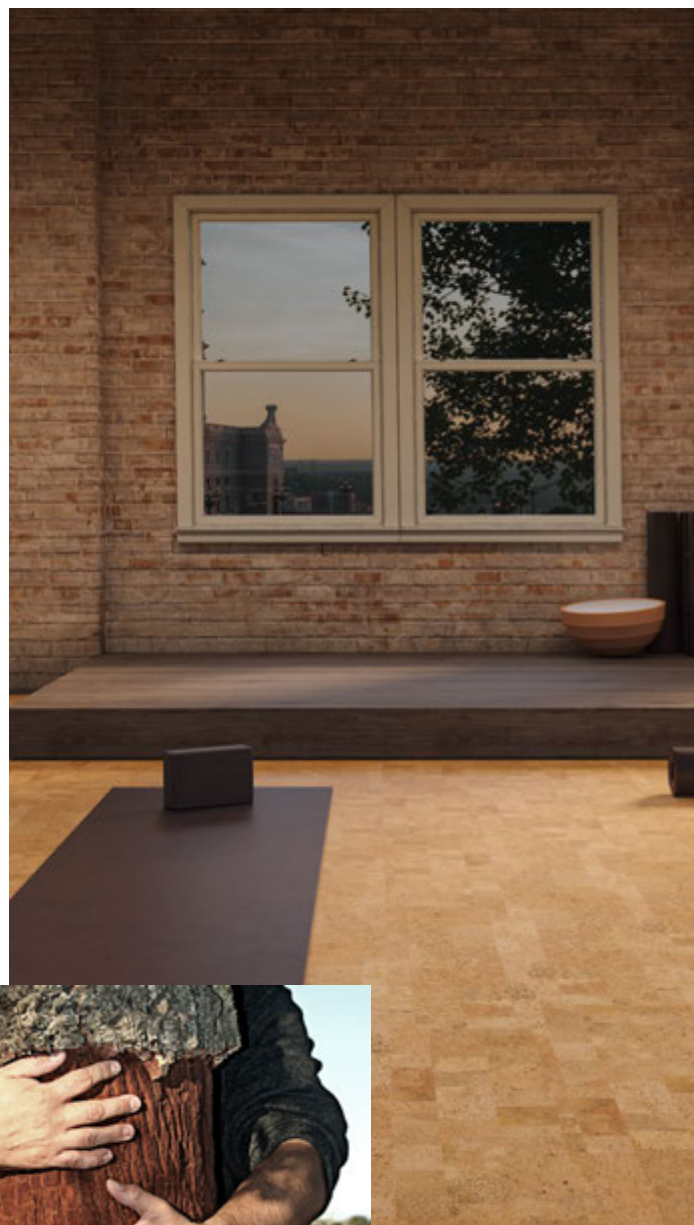

Cork is a remarkable wood species and is 100% Biodegradable, Recyclable, and Renewable.

CUSTOM COLOURS

CORK FOR THE SENSES

More than flooring. Europlex introduces a range of environmentally and socially conscious wall coverings and iconic furniture pieces. The cork ranges from large pieces of cork bark to 3 dimensional patterns to a wide range of textured and printed cork panels. Almost anything imaginable is possible with cork.

VINYL CORK

The durability of vinyl meets the comfort of cork.

AN INNOVATIVE FLOORING SOLUTION

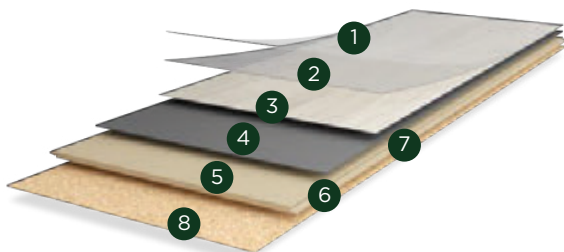

VinylCork is the perfect flooring solution for a practical and stylish design. Modern colours, patterns, and textures offer numerous possibilities for both residential and commercial applications. VinylCork has two layers of high-density cork for superb acoustical and thermal insulation. The UniClick system allows for quick, accurate, and easy installation.

DID YOU KNOW, DRINK WINE – GET CORK!

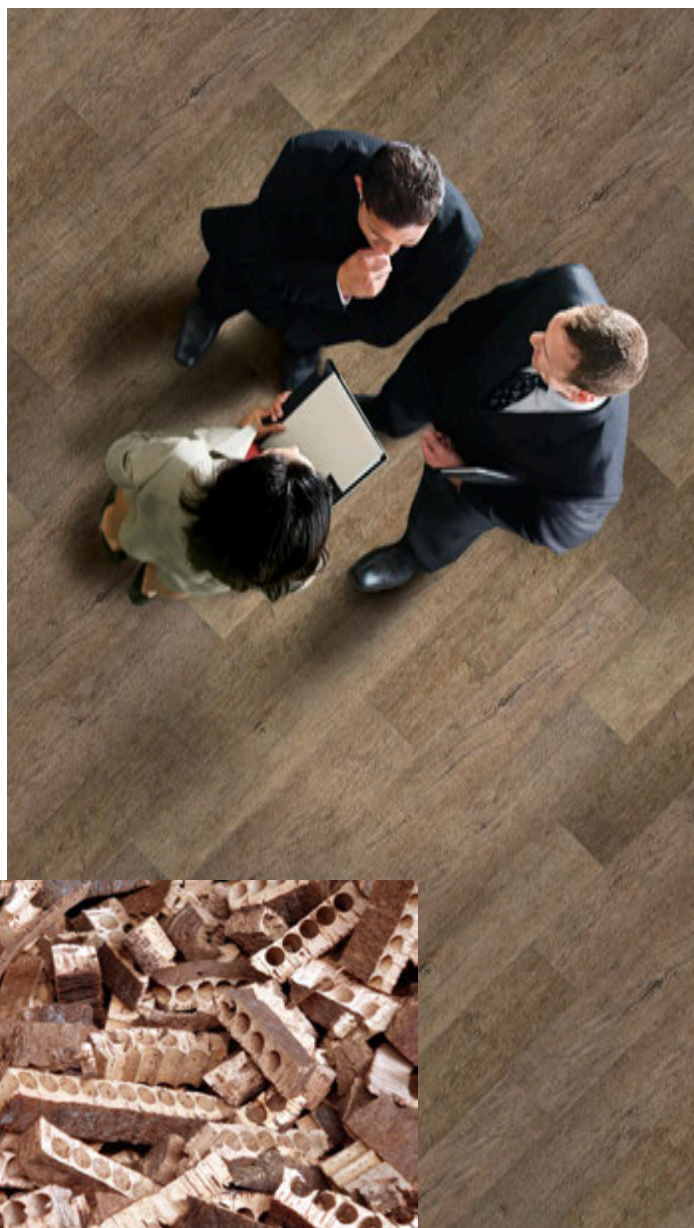

Cork products originate from the by-product of the wine stopper industry! Instead of ending up in a landfill, the recycled material is transformed into flooring. This just one of the many reasons Cork is a proven product for sustainable design.
